

Ancient Medicine Seminar

We are an interdisciplinary research seminar, which brings together those inside the University and elsewhere who have an interest in disease and medicine in the ancient world.

The programme for Trinity Term 2024 is near completion and will be circulated very soon. The first seminar of the term will be held on **Wednesday, 8 May 2024 at 17.30 hours GMT.**

We currently have a gap in the programme, so if any of you wish to volunteer to give a paper or would like to suggest that I approach a particular individual, please let me know as soon as possible.

In order to maintain the continued participation of historians of ancient medicine from afar afield as New Zealand, Chile and the West Coast of the United states, the seminars will continue to be held remotely, using *Zoom*.
